About Professor Dr Rajah Rasiah

Professor Dr Rajah Rasiah has delivered public lectures, policy talks and keynote speeches at prominent international universities, including Cambridge, Oxford, Harvard, Columbia, University of California (Berkeley), National University of Singapore, Australian National University, University of Cape Town, and many others. His policy-oriented work includes research in several countries of Asia, Africa and Latin America in the areas of conceptualization of technology, and its link to development, and methodologies designed to capture clustering, technological capabilities and industrial policies. Several international organizations have commissioned him to write reports for guiding industrial policy in developing economies. He was also one of the principal authors of the United Nations Industrial Development Organization's (UNIDO) 2009 flagship report, and one of the editors of the 2015 UNESCO Science Report. His research and policy work has produced over 280 publications in international journals. He is the recipient of several awards including the Celso Furtado prize while Malaysia's Ministry of Higher Education conferred him the award of Distinguished Professor in the field of Economics in 2017.
